BREEDLOVE'S ROSES

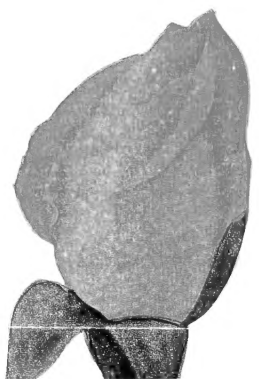

MRS. BREEDLOVE'S FAVORITE DOZEN

Mrs. Breedlove's selection of these twelve varieties has been made after seeing more than twenty-five million plants grow during a twenty-five year period and observing perhaps a billion rose blooms. She has made thousands of rose arrangements for homes and shows and is well qualified to judge blooms.

Of all the many scores of varieties we grow, this is her favorite dozen.

These roses are grown in our fields, Tyler, Texas, "THE ROSE GARDEN OF AMERICA," by the latest scientific methods, which insures their fine quality, vitality, and bloom productiveness.

We use the best and most up-to-date processes known in growing, digging, storing, packaging, and shipping rose bushes. They will, therefore, reach you in perfect condition for planting.

GUARANTEE

We guarantee to ship you first-class, well-grown, healthy plants in good growing condition. Most failures are due to lack of watering before planting, lack of sufficient water after planting, improper care, over-fertilization, frost, etc., and we cannot therefore be held responsible for the results. However, we will replace at half the catalog price any plant or plants we sell that die, if notified by June 1 following planting, but in no case will we be liable for more than the purchase price of the plants.

TRANSPORTATION NOTICE

Two Order Blanks are included for your convenience. Please use Order Blank designated Roses & small plants, for ordering roses and shrubs, which are sent prepaid.

Please use Order Blank designated Nut Trees, Shade Trees, Ornamental Trees, Flowering Shrubs, Evergreens and Fruit Trees, for all other plants. Our prices are so low that trees must be shipped P.O.B. of Nursery. We make a comparison of our prices with others.

Unless you specify method of shipment (on plants other than roses and grapes, we will exercise our best judgment in choosing method of shipment depending on size and weight). Be sure to designate your Express Office if not the same as your mailing address.

B & B indicates roots in ball of earth.

PINK DOGWOOD

No more lovely tree can be found. The pink, forced, four-petaled flowers adorn a spiraled tree with good foliage on graceful branches. Red berries are formed after the blossoms and the leaves in the fall are a red glow, most agreeable even to those of the White Dogwood. Try planting both the pink and white side by side for a lovely effect.

GRAPE MYRTLE

Lavender. Fine, red or white heads of bloom, fragrant. The most ornamental shrub and one produced from late spring until frost on a beautifully formed, strong bush.
